SUMMARY

Computer Science graduate with strong interest in programming, problem solving, and software development. Skilled in Python, Java, JavaScript with a solid foundation in Data Structures, DBMS, and frontend development. Seeking an opportunity to contribute technical skills and analytical abilities in a dynamic organization.

EDUCATION

Priyadarshini College of Engineering [RTMNU]	Nagpur, India
<i>Bachelor of Technology – Computer Technology (CGPA: 7.0/10.0)</i>	2023 – 2026
Priyadarshini Polytechnic	Nagpur, India
<i>Diploma in Engineering – Computer Technology (78.69%)</i>	2020 – 2023
Tejasvi Vidya Mandir	Nagpur, India
<i>Class X (84.60%)</i>	2020

PROJECTS

AI-Based Trip Planner	Python, Django
- Built an AI-driven web application using Django REST Framework to generate personalized travel itineraries with dynamic routing logic. - Integrated third-party APIs (location, weather, recommendations) and built a React frontend with component-based architecture for real-time itinerary rendering.	
E-commerce Product Price Tracker	Java, API Integration
- Developed an automated price monitoring system using Python for web scraping with scheduled data collection and MySQL storage. - Architected an interactive React dashboard leveraging Chart.js for historical price trend visualization and state-driven real-time alert notifications.	

EXPERIENCE

Sports Analytics Intern Catch Sports Analytics	Coimbatore, India
<i>Sports Analytics Internship</i>	
- Gained hands-on experience in sports analytics including game analysis, tagging methods, and data handling. - Developed skills in Data Analysis, Sports Tagging, Attention to Detail, and Real-time Data Handling.	

CERTIFICATION

- Python Full Stack Developer Virtual Internship:** Completed certified virtual internship program. Completed a certified program covering end-to-end web development using Python, Django, REST APIs, and MySQL.
- SQL Basics Certification:** Certified in SQL fundamentals and relational database operations. Earned certification demonstrating proficiency in SQL queries, joins, aggregations, and relational database management.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Frontend: HTML, CSS

Web Technologies: Django, REST APIs, API Integration

Database: SQL, MySQL

Tools & CS Fundamentals: Git, OOPs, DBMS, Operating Systems, Computer Networks
